

## Precision & productivity in dispensing

**Plant Supervisor PSX software controls the functions of various loadout equipment to accurately fulfill product dispensing orders.**

## Benefits

- **Control** various measuring and mixing systems, utilizing a variety of scales and meters. Also functional with Loss-in-Weight and Bulk Weigher towers. Overall this design capability provides a wide range of system integration.
- **Command** each system to provide exact timing and staging between the product and systems to ensure precise dispensing.
- **Assign** specific discharge, compartment and product when filling for greater loadout control.
- **Allocate** multiple small-quantity orders to a single loadout for things such as small fields with the same blend. This minimizes the number of fill/mix/discharge cycles to streamline dispensing.
- **Quickly and easily** load multiple orders with the Load Optimizer feature to take full advantage of transport capacity.
- **Interface** with RFID readers to provide internal and external notifications on orders and load status for exact real-time communication.
- **Orders** can be entered into Terminal Management TMX or imported from integrated accounting packages for quick and simplified workflow.
- **Use email** to deliver load tickets and reports for streamlined process control and management.

To learn how our systems can help give you control at your facility, please contact your Kahler Territory Sales Manager. Don't know who that is? Visit [KahlerAutomation.com/sales](http://KahlerAutomation.com/sales) to find out!

## High lights

**The manufacturing functionality in Plant Supervisor PSX helps facilities make new product for inventory & dispensing.** Control a variety of measuring and mixing equipment to blend liquid or dry products to provide the following benefits:

- Precisely create specific recipes that differentiate your product offering to fully satisfy all customer needs
- Repeat blend allows multiple batch quantities to be created at one time for higher productivity
- Web page application for easy remote access from any smart device
